PROFESSIONAL SUMMARY

Computer Science graduate and MCA candidate with hands-on experience in Python, Flask, and full-stack web development using HTML, CSS, and JavaScript. Skilled in database management with MySQL and SQLite, version control with Git and GitHub, and foundational Cloud Computing with exposure to Google Cloud and Generative AI. Seeking an entry-level Software Developer role to apply technical skills and contribute to real-world software solutions.

EDUCATION

Master of Computer Applications (MCA)

Lourdes Matha College of Science and Technology • APJ Abdul Kalam Technological University

Expected 2027

Bachelor of Science in Computer Science

Emmanuel College, Vazhichal • University of Kerala

Graduated 2025 • CGPA: 7.21 / 10

TECHNICAL SKILLS

Programming Languages: Python, C

Frameworks: Flask, Express.js

Web Technologies: HTML5, CSS3, JavaScript, EJS, Node.js

Database: MySQL, SQLite

Cloud & AI: Google Cloud Platform, Cloud Computing, Generative AI Fundamentals

Tools & Version Control: Git, GitHub, VS Code

PROJECTS

Task Manager — Individual Project

Python | Flask | SQLite | HTML | CSS | JavaScript

- Developed a full-stack task management web app using Python and Flask with SQLite, featuring CRUD operations and user authentication.
- Built a responsive frontend using HTML, CSS, and JavaScript with clean routing and structured database design for reliable data handling.

Personal Portfolio Website — Individual Project

HTML | CSS | JavaScript | Vercel

- Designed a mobile-first responsive portfolio using HTML5, CSS3, and JavaScript with semantic structure and accessibility best practices.
- Deployed on Vercel with continuous integration for zero-downtime updates and fast global content delivery.

SkillRadar — Group Project (UI Design & Testing)

Python | Flask | MySQL | HTML | CSS | JavaScript

- Designed the application UI using HTML, CSS, and JavaScript, ensuring consistent visual layout and intuitive user navigation.
- Performed functional and integration testing across Flask routes and MySQL interactions, identifying defects to improve software quality.

Interactive Chatbot — Group Project (B.Sc. Final Year)

Node.js | Express.js | HTML | CSS | JavaScript | EJS

- Built a rule-based web chatbot using Node.js and Express.js that handles predefined user queries through a dynamic EJS-rendered interface.
- Contributed to frontend development, manual testing, and team collaboration throughout the project lifecycle.

CERTIFICATIONS

NPTEL – Cloud Computing (Elite, 80%, 4 Credits) • **Google Cloud – Introduction to Generative AI** • **Python with AI – SkillEcted** • **Intel AI For All: AI Appreciate & AI Aware** • **Zero to Hero in Web Scraping with Python & Regex – SkillEcted**

AREAS OF INTEREST

Web Development • Cloud Computing
Frontend Development • Software Testing

SOFT SKILLS

Problem Solving • Communication
Team Collaboration • Adaptability
